RubySG Telegram!

1. Telegram Link: <https://t.me/joinchat/BPfX501idx5NSmdANkOrtg>

1. QR Code:

Webinar Rules

1. Please mute yourself by default during the talks.
 - a. Only unmute when you are speaking so as to reduce noise during the talks.
2. Turning on WebCam is highly encouraged so that we can get to know our fellow ruby-ist!

Speaker : Vita

Dockerizing Rails

Have you ever encountered bugs due to inconsistencies between the development, test and production environments? Do you feel painful by repeating yourself every time when you need to deploy an application in a local development or production environment ? Docker could be a solution. Today we'll dive right into it with Vita.

Speaker : Kang Sheng

Fiber

Having heard of the term Fiber for a while, I finally got around to spending some time really understanding what it is. In this talk, I would like to share with all of you what I learnt and what I found interesting!
